Joining the dots across health and care

# Who are we?

---

<https://scwcsu.nhs.uk/>

- We are a subsidiary of NHS England and work as an **NHS support service**
- We are **system partners, joining the dots** between health and care through service transformation and essential system support
- **We are a non profit making part of the NHS**, with shared NHS values and goals

# Meet the Team:

---

## Catherine Neck

- Former Macmillan AHP/ LWBC Lead
- Involved with development of national Prehab Guidance

## Sarah Warren

- Management Lead in Condition Management RTW service (bio-psychosocial model)
- Expertise in contracting and commissioning

## Zoe Bristow

- Clinical Lead for national Pseudomyxoma Peritoneii service
- Experience implementing and supporting the SCW COVID Clinical Assessment Service

---

## Overall Aim:

To achieve:

- Sustainably commissioned, fully embedded services that are future proofed for the new challenges of COVID

This includes:

- Patient-centred focus
- A whole pathway approach
- Involvement of primary care and wider health and social care as partners in cancer care

## Challenges:

- Range of prehabilitation services offered across the country
- Different delivery models:
  - Cancer site and treatment
  - NHS Acute; Community; Local Authority
  - Workforce
- Variation in evaluation approaches
- Most services are pilot programmes which require long-term funding

# Our Approach:

---

## Supporting Cancer Alliances to help their organisations, through:

- Evidence-based Approaches using Service Improvement Methodology
- Patient-Centred Evaluation:
  - Which enhances clinical care
  - Contributes to wider strategic aims of emerging ICSs
  - Demonstrates economic impact
- Clinical Expertise – Prehabilitation, Rehabilitation, Cancer and Long-term Conditions
- Understanding the emerging Commissioning and Contracting arrangements
- Creation of exemplar Business Case
- Development of Outcomes Based Service Specification
- Training in Business Case Development

# Questions and Next Steps

---

- Invite for Cancer Alliances who are interested in the development of this to form a small group
