Cancer Matters Wessex

# The HPV Vaccine can protect you against cancer

- The HPV vaccine is **free**, **safe** and **effective**
- It can protect you against many cancers, including **mouth cancer**, **penile cancer** and **cervical cancer**
- The HPV vaccine can be given to both **men (born after Sept 2006)** and **women** up until your **25th birthday**, or later if you are at higher risk
- The vaccine is **saving hundreds of lives** every year in the UK
